ANAS MOHAMMED RIZA

Software Engineer | Full Stack Developer

Puttalam | Colombo, Sri Lanka | +94 75 412 1698 | rizanas0526rz@gmail.com | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Graduate Software Engineer with a BEng (Hons) in Software Engineering, awarded with First Class Honours from London Metropolitan University, and six months of hands-on experience as a Frontend Developer Intern. Skilled across the full stack with React.js, Next.js, React Native, Node.js, and Express.js, and experienced working with both SQL and NoSQL databases including PostgreSQL, MongoDB, and Firebase. Has independently designed and shipped several full-stack and mobile applications, ranging from e-commerce platforms to booking and authentication systems. Brings a strong academic record, a fast learning curve, and genuine curiosity for new technologies to a growing engineering team.

EDUCATION

BEng (Hons) in Software Engineering — First Class Honours 2026
London Metropolitan University (awarded via ESoft Metro Campus, Sri Lanka)

Pearson BTEC Higher National Diploma (HND) in Computing (Software Engineering) 2025
ESoft Metro Campus

G.C.E. Advanced Level — Engineering Technology 2022
Zahira National College, Puttalam

G.C.E. Ordinary Level 2019
Zahira National College, Puttalam

PROFESSIONAL EXPERIENCE

FocalDiveMarch 2025 – September 2025
Frontend Developer Intern

- Built responsive, production-facing web interfaces by developing with Next.js, TypeScript, Tailwind CSS, and Shadcn UI.
- Translated UI/UX mockups into reusable, accessible components by partnering closely with designers and senior developers.
- Improved application stability and load performance by diagnosing and resolving frontend bugs.
- Delivered end-to-end functionality by integrating frontend interfaces with backend REST APIs.
- Maintained code quality and team alignment by working within an Agile team using Git-based version control and code review workflows.

PROJECTS

Noir Étude — Luxury Fashion E-Commerce Website
Next.js, React.js, Tailwind CSS, TypeScript, Shadcn UI, Vercel | Live: noir-etude.vercel.app

- Delivered a polished, modern shopping experience by designing and building a responsive e-commerce site with reusable React/Next.js components.
- Ensured a consistent experience across devices by optimizing layouts and load performance for desktop, tablet, and mobile, then deploying to production on Vercel.

Book My Play — Online Turf Booking Platform
Next.js, Tailwind CSS, Shadcn UI, TypeScript, Git

- Extended a nationwide sports turf booking platform by contributing frontend features and building reusable UI components within a scalable architecture.

- Maintained code quality across the team by collaborating with designers and developers using Git-based workflows.

Student Online Complaint Management System

React.js, Node.js, Express.js, MongoDB, REST API

- Enabled secure issue tracking for educational institutions by developing a full-stack complaint management system with CRUD functionality.
- Streamlined data handling by building responsive interfaces integrated with RESTful APIs.

City Timber — Premium Timber & Construction Materials Website

Next.js, React.js, TypeScript, Tailwind CSS, Shadcn UI, GSAP, Lucide React, Vercel | Live: city-timber.vercel.app

- Designed and developed a modern, responsive business website for City Timber, presenting its timber products, professional services, company background, and customer contact information through a clean, premium visual experience.
- Enhanced the website with interactive GSAP animations, including cinematic page-load transitions, scroll-triggered section reveals, staggered card animations, hover interactions, animated statistics, and smooth mobile navigation effects to create a polished user experience.

Dreamy Hotel Reservation System

React.js, Tailwind CSS, Firebase

- Simplified the booking process by building a responsive hotel reservation web app with an intuitive flow and reusable React components, backed by Firebase.

Mobile Authentication App

React Native, Expo, Firebase Authentication, Firebase Firestore

- Secured user access by developing a cross-platform mobile app with registration and login powered by Firebase Authentication and Firestore.

Mobile Todo Application

React Native, Expo, JavaScript

- Improved everyday task tracking by building a task management app with full CRUD functionality and a clean, responsive mobile UI.

CERTIFICATIONS

- English Speaking & Listening — Open University of Sri Lanka, Puttalam

SKILLS

Languages: JavaScript (ES6+), TypeScript, Python

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Shadcn UI

Backend & APIs: Node.js, Express.js, REST API Design, JSON, CRUD Operations

Mobile: React Native, Expo

Databases: PostgreSQL, MongoDB, Firebase Firestore, Supabase

Authentication: Firebase Authentication, JWT

Tools & Platforms: Git, GitHub, VS Code, Android Studio, Postman, pgAdmin, Figma

Design & Media: Figma, Canva, DaVinci Resolve, CapCut

Productivity: Microsoft Word, Excel, PowerPoint, Google Sheets

Core Strengths: Problem-solving, analytical thinking, communication, adaptability, team collaboration, self-motivation
